

ENVIRONMENTAL POLICY OF VERINDPLAST S.r.l.

VERINDPLAST S.r.l. has developed an Environmental Management System in accordance with the norm UNI EN ISO 14001:2015 and it commits itself to:

- Give maximum priority to environmental topics, in all decisions connected to its activity, products and services;
- Prevent pollution and respect the environmental law in force;
- Train and inform the entire company staff about environmental problems and involve, in every possible occasion, also partners, clients, suppliers and all company stakeholders;
- Plan and perform all Environmental purposes
- Publicize outside and inside the company all information connected to the Environmental policy, to the environmental performances and the Purposes defined;
- Divulge information and direct clients towards products compatible with environmental development, respecting present and future generations;
- Apply the best environmental techniques (economically affordable) available on the market;
- Aspire to continuous improvement of its environmental performances in terms of reduction of consumption of natural and energetical resources and reduction of emissions in general; preliminary evaluation of environmental impacts connected to company processes, verification activities, internal and external, and the Re-examination from the Direction are the tools that the organization applies to continuously improve itself.
