

QUALITY POLICY

“In Verindplast srl we are committed to providing full satisfaction of our customers in terms of quality, reliability and delivery and in order to reach a quality leadership about all the products that we produce”

We achieve these goals by:

- Establish a QMS (Quality management system) in accordance with international quality standard ISO 9001:2015, customer specific requirements and stakeholders;
- Develop a company culture of “Do it right first time” and “Safety first, quality always”;
- Continuously update our technology level in order to fulfil customers’ expectations;
- Believe in training, planning and developing it through specific training plans;
- Create an environment that encourages team building and where every individual contribution is recognized and enhanced;
- Provide strategic direction to fulfill company’s mission and vision.

This policy is communicated and understood within the organization and will be available to interested parties in case of request
